

Table Top Packing Instructions

**BALLANCE
DISPLAY**

A Division of Ballance Design Ltd.

Component list for your Geotech tabletop display

Geotech Frame

Magnetic channel bars

Main panels

Endcaps

Lights (optional)

1. Begin by placing the Main Panels (graphic or fabric facing out, magnets in) into the supplied vinyl cylinder carrying case. Once in the case remember to expand the panels so they are snug against the exterior.

2. Next, place the 2 end caps and repeat the expanding as with the main panels.

3. Once all the panels are in, place the frame within the opening in the center of the carrying case.

4. Place the magnetic channel bars with in the center of the case along side the frame.
