

# Multiple L Banner Setup Instructions

**BALLANCE  
DISPLAY**

A Division of Ballance Design Ltd.

1. Begin by placing the Panels face down in order

2. Next, place the supplied connecting bars between each joint on the panel frames.

3. OPTIONAL - To help keep your banner as close together as possible, place the provided velcro strips along both seams. Keeping them as tight together as possible while doing so.

4. This is an example of a joint with the velcro attached and the connecting bar in place.

5. Once all the panels are secured, begin to place the legs evenly across the back, on both seams and at the edges. Do so by holding the foot with the pole and placing the top notch into the top of the banners bar. Then place the foot on the bottom bar to create tension.

6. As shown by the arrows proceed to have 2 people lift the banners at the points shown to prevent bending or kinking of the graphics.
