The Twister

Twister

Lightweight, portable and great quality!

The Twister is great for so many purposes. Sets up in less than a minute, and is perfect for trade shows and great for any product display needs you may have.

This aluminum display tower is available in a 81" Tall model as well as a 42" Tall model with a display counter.

When packed up this twister fits into a small case and is great for moving around!

The twister even has the capability to display graphics in what ever capacity you need. Both in the large and counter models.

Note : The Large tower contains built in display lighting on the top display platform.
